

# SYSTEM ADMINISTRATOR

**First Net Impressions is seeking a sys admin to join our team.** Our ideal candidate will be able to discern why a client is unable to access Internet services (primarily web and email) and instruct the client in the configuration necessary to use Internet services (primarily POP3, IMAP, SMTP, FTP).

Over the course of employment, this employee will be expected to come up to bat with the following:  
*Note: These are not expected on day one. As you progress within our firm, you should be able to do all in time.*

- Manage all email related telephone support and be familiar with spam filtering measures in place
- Script backup for mission-critical systems and tune services for performance and security
- Add and remove patron accounts on a live system
- Spec, install, and configure server equipment
- Script tools for patron account management and rapid update of email filtering measures
- Plan and implement hardware upgrades especially as it applies to patron data migration
- Provide insight into technology trends and our corporate placement within those trends

## POSITION REQUIREMENTS

- High level familiarity with Linux Command line management tools
- Knowledge of common Internet services at the protocol level
- Application experience with Sendmail, Bind, PureFTPd, Open SSH, Apache, and MySQL
- Reasonable exposure to PHP as a command line scripting tool

## PERSONALITY REQUIREMENTS

- Unequaled trustworthiness and ethics when handling other people's data
- Unyielding patience when dealing with patrons who are technology challenged
- Thorough and comprehend-able written communication skills
- Approachable and pleasant verbal communication skills
- A mind that leans away from abstract, creative thinking and toward structured, inquisitive thinking

**This is a full time, salaried position** eligible for paid vacation, paid holidays, medical/dental/vision insurance, and matched retirement contributions.
